Entry front-end web developer leveraging customer service and finance background to create a more engaging and friendly experience on the web. Recently earning a certificate in full stack development from the UT Austin Coding Bootcamp, with newly developed skills in JavaScript, CSS, React.js, and responsive web design. With each project, my aim is to best engage my audience for an enjoyable user experience. I've worked with different classmates to develop multiple projects that have greatly increased our understanding and interest in web development. I'm excited to leverage my skills as part of a fast-paced, quality-driven field to build better experiences on the web.

Computershare / Sr. Customer Service Representative

December 2018 - February 2021, College Station, TX

- Facilitating the transfer and sales of securities.
- Keeping up-to-date on dividend schedules, proxy votes and odd-lot programs.
