SUMMARY

Full Stack Web Developer leveraging customer service and finance background to create a more engaging and friendly experience on the web. Recently earning a certificate in Full Stack Web Development from the University of Texas at Austin coding bootcamp, with newly developed skills in responsive web design; with each project to engage the audience for an enjoyable user experience. Ability to work independently and collaboratively to develop multiple projects that greatly increase understanding and interest in web development. Excited to leverage skills as part of a fast-paced, quality-driven field to build better experiences on the web.

TECHNICAL SKILLS

Languages: JavaScript, CSS, HTML, SQL, NoSQL, three.js
Applications: GitHub, MongoDB, MySQL
Tools: Express, React, Node, Handlebars, Bootstrap, Spline

PROJECTS

Dalila
https://github.com/pigodidog/Dalila
http://dalila-app.herokuapp.com/

- A music playlist suggestion application with a lot of easter eggs.
- Focused primarily on using Spline and Bootstrap for the Front-End and some logic structure for the quiz. Had a lot of fun with the little details.
- React, Redux, axios, MongoDB Atlas, Spline, SpotifyAPI.

PokéFyte
https://github.com/Dylan-Casanova/PokeFyte-The-Game
https://pokyfyte.herokuapp.com/

- This application allows users to select a Pokémon and fight a variety of other Pokémon in a battle. There is also a Pokédex that provides stats.
- Refactored code from a Pokémon game to work with the application and created a fully developed ReadMe.
- Handlebars, Javascript, CSS, axios, Sequelize.

TangibleTunes
https://github.com/mattjb97/Tangible-Tunes
https://mattjb97.github.io/Tangible-Tunes/

- A User can enter the name of a song and the lyrics and corresponding video will populate on the page.
- Responsible for the HTML and also helped with traversing the API calls to get correct lyrics.
- HTML, CSS, Javascript.

theCOOP / Freelance Software Engineer   June 2021–Present
Remote

- An early stage startup founded to help career changers accelerate their transition into the Engineering and Design fields by providing them real world experience and mentorship, building projects and working in Agile teams.
- Collaborate with product manager and design team to translate Figma files into React components and Storybook files for Design team review.
- Contribute to the sprint planning with the Engineer team and product manager.

Computershare / Senior Customer Service Representative   Dec. 2018 – Feb. 2021
College Station, TX

- Facilitated the transfer and sales of securities.
- Assembled up-to-date information on dividend schedules, proxy votes and odd-lot programs.
- Educated employees on details of ESPP (Employee Stock Purchase Plan) and Stock Options from different companies such as Home Depot and Leidos.
- Resolved issues for shareholders.

Key Accomplishments:
- Succeeded in transition from temporary employee to company employee in under 1 year.
- Consistent recognition for efficiency and quality assurance scores.

Pizza Hut / Delivery Driver   Aug. 2016– Sept. 2018
College Station, TX

- Communicated customer complaints, requests and feedback to company management for swift resolution.
- Preparation of side dishes prior to opening.
- Updated dispatchers frequently to convey changes such as route issues or weather delays potentially impacting deliveries.

Salata / Kitchen Prep   Aug. 2014– Nov. 2014
College Station, TX

- Prepared cooking supplies, ingredients and workstations during opening and closing procedures to maximize efficiency.
- Prepared and expedited food orders to support waitstaff and other team members.
- Practiced proper safety and sanitation standards.

Certificate, Fullstack Web Development – University of Texas Bootcamp   Austin, TX
March 2021 - June 2021
A 12-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.

Associates of Arts, Liberal Arts – Blinn College   College Station, TX
August 2014 - December 2018
